

THE NELSON MANDELA AFRICAN INSTITUTION OF SCIENCE AND TECHNOLOGY (NM-AIST)

INVITATION OF APPLICATIONS FOR ADMISSION TO MASTER'S AND PhD PROGRAMMES FOR 2017/18 ACADEMIC YEAR

1.0 BACKGROUND

The Nelson Mandela African Institution of Science and Technology (NM-AIST) in Arusha, Tanzania is one in a network of Pan-African Institutions of Science and Technology located across the continent. These institutions envision training and developing the next generation of African scientists and engineers with a view to impacting, profoundly, on the continent's development through the application of Science, Engineering and Technology (SET).

The NM-AIST, which is accredited by the Tanzania Commission for Universities (TCU) is a research intensive institution for postgraduate and post-doctorate studies and research in SET. Its mission is to produce: (1) top-notch SET academics for Higher Learning Institutions; (2) competent researchers for Research and Development (R&D) Institutions; and (3) technopreneurs, industry captains and innovations managers for stimulating, catalyzing and promoting business start-ups and growth of the local Industry. The training, therefore, incorporates appreciable doses of relevant business studies and humanities ingredients designed to develop attributes that will enable graduates become better scientists and engineers for the society and industry.

The Goal of NM-AIST is to catalyze the development of world-class SET through the production of high quality scientists and engineers in Eastern Africa to stimulate, catalyze and promote economic growth and employment creation. Pursuant to this goal, the objective of NM-AIST is to educate the next generation of African scientists and engineers by equipping them with the technical, entrepreneurial and leadership capacities to solve African problems thereby contributing to the economic and social transformation of sub-Saharan Africa. More information on NM-AIST is available on the website: www.nm-aist.ac.tz.

2.0 PROGRAMMES AND AREAS OF SPECIALIZATION

The NM-AIST hereby invites applications from suitably qualified candidates for admission to pursue various Master's or PhD programmes. Programmes on offer this and next academic year including the areas of specialization are shown overleaf:

Table 1: Degree Programmes and Specializations

School	Degree Programme	Area of Specialization	
Life Sciences and Bio-Engineering (LiSBE)	(i) Master's in Life Sciences (ii) PhD in Life Sciences	Health and Biomedical Sciences	
		Sustainable Agriculture	
		Food and Nutritional Sciences	
		Biodiversity and Ecosystems Management	
	(i) Master's in Bioengineering (ii) PhD in Bioengineering	Bio-product Development	
		Vaccines and Diagnostics	
	(i) Master's of Science in Public Health Research (MScPHR)	Determinants of Health and Diseases	
		Intervention Research	
		Implementations and Health Systems Research	
Computational and Communication Science and Engineering (CoCSE)	(i) Master's in Mathematical and Computer Science and Engineering (ii) PhD in Mathematical and Computer Science and Engineering	Applied Mathematics and Computational Science	
		Computer Science and Engineering	
	(i) Master's in Information and Communication Science and Engineering (ii) PhD in Information and Communication Science and Engineering	Information Technology Systems Development and Management	
		Electronics and Telecommunications Engineering	
	Materials, Energy, water and Environmental Sciences (MEWES)	(i) Master's in Materials Science and Engineering (ii) PhD in Materials Science and Engineering	Structural Materials
			Energy Materials
(i) Master's in Sustainable Energy Science and Engineering (ii) PhD in Sustainable Energy Science and Engineering		Sustainable Power Generation and Energy Utilization	
		Sustainable Renewable Energy Engineering	
		Sustainable Nuclear Power Engineering	
(i) Master's in Hydrology and Water Resources Engineering (ii) PhD in Hydrology and Water Resources Engineering		Hydrology and Climate Studies	
		Water Resources Engineering	
		Irrigation Engineering	
(i) Master's in Environmental Science and Engineering (ii) PhD in Environmental Science and Engineering		Water Supply and Sanitation	
		Environmental Science	
	Environmental Engineering		

3.1 ENTRY REQUIREMENTS

3.2 Admission to Master's Programmes

To be admitted to Master's programmes at NM-AIST, candidates shall meet the minimum requirements as stipulated below:

3.2.1 Master's by Coursework and Dissertation

- (i) Possess a Bachelor's degree from an accredited university or similar institution of higher learning with GPA of at least 3.0/5.0.
- (ii) Candidates that hold unclassified degrees (e.g. MD, BVM and DDS) shall have at least an overall of "C" grade and an average of "B" grade in the relevant subject or field of his/her

specialization.

- (iii) Satisfy the programme and specialty specific requirements as specified by the School / Department hosting the programme in section 3.5 below.

3.2.2 Master's by Research and Thesis

- (i) Possess a Bachelor's degree from an accredited university or similar institution of higher learning with GPA of at least 3.5/5.0.
- (ii) Demonstrate ability to undertake research by either providing evidence of at least ONE year working experience in a research group/environment or at least ONE publication in an accredited peer- reviewed journal as the FIRST or SECOND author.
- (iii) Submit along with application documents, a concise ONE-page concept note of what he/she wishes to research on as part of the study in order to demonstrate his/her ability to organize thoughts in writing, logically and creatively. The candidate shall be required to defend the concept note before a panel appointed by the host School/Department.
- (iv) Be ready to pursue prescribed skills and capacity enhancing courses which are offered to all Master's students at NM-AIST as common core courses and as may be recommended by the supervisors, to enhance research performance. The courses may be taken flexibly during the duration of the programme but MUST be successfully completed before graduation.

3.3 Admission to PhD Programmes

To be admitted to PhD programmes at NM-AIST, candidates shall meet the minimum requirements as stipulated below:

3.3.1 PhD by Coursework and Dissertation

- (i) Possess a Bachelor's degree from an accredited university or similar institution of higher learning with GPA of at least 3.0/5.0.
- (ii) Possess a Master's degree from an accredited university or similar institution of higher learning with a minimum GPA of 3.5/5.0 and least an average of "B" in the relevant subject or field of specialization.
- (iii) Satisfy the programme and specialty specific requirements by the School/Department hosting the programme as specified in section 3.5 below.

3.3.2 PhD by Research and Thesis

- (i) Possess a Bachelor's degree from an accredited university or similar institution of higher learning with GPA of at least 3.5/5.0.
- (ii) Possess a Master's degree from an accredited university or similar institution of higher learning with a minimum GPA of 3.5/5.0.
- (iii) Demonstrate research experience by either producing evidence of at least TWO publications in accredited peer-reviewed journals, being the FIRST author in ONE publication and FIRST or SECOND author in the second publication, or produce evidence of a patent/prototype emanating from his/her research/innovation work and/or a funded research project with a PhD training component.
- (iv) Submit along with application documents, a concise TWO-page concept note of what he/she wishes to research on as part of study in order to demonstrate his/her ability to organize thoughts in writing, logically and creatively. The candidate shall be required to defend the concept note before a panel appointed by the host School/Department.

- (v) Be ready to pursue prescribed skills and capacity enhancing courses which are offered to all PhD students at NM-AIST as common core courses and as may be recommended by the supervisors to enhance research performance. The courses may be taken flexibly during the duration of the programme but **MUST** be successfully completed before graduation.

3.4 English Proficiency

Since English is the primary language of instruction, all applicants seeking admission to academic programmes at NM-AIST must possess adequate knowledge of written and spoken English as a prerequisite for admission. This demonstration may take one of the following forms:

- (i) Successful completion of a baccalaureate degree from a recognized university or similar institution of higher learning where English is the language of instruction.
- (ii) Successful completion of a postgraduate degree programme at a recognized university or similar institution of higher learning where English is the language of instruction.
- (iii) Submission of official results of the Test of English as a Foreign Language (TOEFL) with a paper-based score of 550 (or higher), computer-based score of 213 (or higher) or Internet-based with a score of 80 (or higher).

3.5 Academic Transcripts and Certificates

Candidates who have been awarded Bachelor's and/or Master's degrees at accredited universities or similar institutions of higher learning which issue academic documents in languages other than English shall submit notarized English translations of all supporting documentation including, but not limited to, transcripts, degrees, and diplomas.

The academic levels or equivalence of the qualifications obtained from foreign institutions must be authenticated by the Tanzania Commission for Universities (TCU). Please use the following link to have the access to the TCU: <http://faas.tcu.go.tz/login.php>.

Programme Specialty Requirements

Table 2: School of Life Science and Bioengineering

Degree Program	Specialization	Prerequisite degree Courses
Life Sciences	Health and Biomedical Sciences	Veterinary Science or Medicine (BVSc, BVM, DVM); Human Medicine (MD); Biomedical Sciences; Clinical Sciences; Animal Science; Microbiology; Molecular Biology; Biotechnology; Physiology (Medical or Veterinary), Pathology (Medical or Veterinary); Immunology (Medical or Veterinary); Parasitology; Zoology and related fields.
	Sustainable Agriculture	Agriculture; Crop Science; Biology; Horticulture; Agronomy; Plant Pathology; Biology; Genetics; Biotechnology; Botany and Forestry; Agricultural Economics; Crop Pathology, Agricultural Education and Extension; Agroecology, Botanical Science; Range Management and related fields.
	Food and Nutritional Sciences	Food Science; Home Economics and Human Nutrition; Food Technology; Biochemistry; Clinical Nutrition; Dietetics; Child and Maternal Care; Food Biotechnology; Functional Food; Food Development; Food Safety; Food quality and Safety and related fields.

	Biodiversity and Ecosystem Management	Ecology and Biodiversity; Wildlife Science and Conservation; Conservation Biology; Forestry; Silviculture; Aquaculture; Evolutionary Biology; Tropical Biodiversity and Wildlife Management; Organic Chemistry; Microbiology; Agroecology; Animal Science; Population Biology and related fields.
Bio-Engineering	Vaccines and Diagnostics Development	Food Science; Biochemistry; Bioengineering; Biotechnology; Mechanical or Electrical Engineering; Chemical Engineering and related fields.
	Bio-product Development	Molecular Biology; Microbiology; Biotechnology; Bioinformatics; Biological Science; Biotechnology and Laboratory Sciences; Biomedical Technology, Chemical Engineering; Mechanical or Electrical Engineering and related fields.
Master of Science in Public Health Research (MScPHR)	Determinants of Health and Diseases	Social Sciences (Sociology, Anthropology), Environmental Sciences, Doctor of Medicine, Veterinary Science/Medicine, Human Nutrition Sciences, Statistics, Biology, Informatics and related fields
	Intervention Research	Statistics, Doctor of Medicine, Veterinary Science/Medicine, Environmental Sciences, Human Nutrition Sciences, Biology and related fields
	Implementations and Health Systems Research	Social Sciences, Doctor of Medicine, Environmental Sciences, Health System Management, Economics, Statistics, Informatics and related fields

Table 3: School of Computational and Communication Science and Engineering (CoCSE)

Degree Programme	Specialization	Prerequisite degree Courses	Specific Requirements
Mathematical and Computer Science and Engineering (MCSE)	Applied Mathematics and Computational Science (AMCS)	Mathematics; Applied Mathematics and related fields	A student to be admitted in Master's or PhD in Applied Mathematics and Computational Science Specialty, shall be required to have at least 2 Principal passes of which one shall be from Advanced Mathematics in Advanced Level Certificate of Secondary Education. The students must also have taken Mathematics or Statistics at the Bachelor degree.
	Computer Science and Engineering (CSE)	Computer Science; Software Engineering; Informatics; Information Technology; Computer Engineering, or related fields	Applicant must have at least two principal passes in science subjects at Advanced Level Certificate of Secondary Education (A'Level) or its equivalent
Information and Communication Science and Engineering (ICSE)	Information Technology Systems Development and Management (ITSDM)	Information Systems; Information Technology; Informatics; Computer Science; Software Engineering; Computer Engineering, or related fields	Applicant must have at least two principal passes in science subjects at Advanced Level Certificate of Secondary Education (A'Level) or its equivalent
	Electronics and Telecommunications Engineering (ETE)	Telecommunications Engineering; Electronics Engineering; Electrical Engineering;	Applicant must have at least two principal passes in science subjects at Advanced Level Certificate of Secondary Education (A'Level) or its equivalent

Table 4: School of Materials, Energy, Waters and Environmental Science

Degree programme	Specialization	Prerequisite degree Courses	Specific Requirements
Hydrology and Water Resources Engineering	Hydrology and Climatic Studies	Water Resources Engineering, Irrigation Engineering, Geology, Hydrogeology, Environmental Science, Environmental Engineering, Geography, Civil Engineering, Sanitation Engineering, Mining Engineering and related fields.	Applicants MUST have at least “B” grades at a Bachelor’s degree, in courses majoring the degree programme/specialty applied for. Work experience and knowledge in modeling will be an added advantage.
	Water Resources Engineering		
	Irrigation Engineering		
	Water Supply and Sanitation		
Environmental Science and Engineering	Environmental Science	Chemistry, Biology, Zoology, Aquatic/Marine Sciences, Chemical Engineering, Environmental Science/Engineering, Food Sciences/Engineering, Biochemical Engineering, Agriculture, Wildlife, Forestry, Mining Engineering, Mineral Processing, Geology, Public health, Ecotourism and Natural Resources Conservation Water Resources Engineering, Microbiology and related fields.	In addition to the above, applicants holding Bachelor’s degrees majoring in Chemistry or Biology like Bachelor of Education with Chemistry/Biology and Bachelor of Science (Chemistry/Biology) MUST have at least “B” grades in Chemistry, Biology and/or other courses related to Environmental Science/Engineering, Chemical Engineering and related courses.
	Environmental Engineering		
Materials Science and Engineering	Structural Materials	Physics, Chemistry, Biology, Mechanical Engineering, Structural Engineering, Mathematics and/or related courses, Mechanical Engineering, Civil Engineering, Chemical Engineering, Computer Engineering, Computer Science, Electrical Engineering, Polymer Engineering, Materials Science and Engineering and related fields.	Applicants holding Bachelor’s degrees majoring in Chemistry, Physics or Biology, like Bachelor of Education with Chemistry/Biology/Physics and Bachelor of Science (Chemistry/Biology/Physics) MUST have at least “B” grades in Chemistry, Biology, Physics courses and/or other courses related to Environmental Sciences/Engineering and Chemical Engineering. Work experience in indigenous raw materials application, material structure and failure and nanotechnology will be an added advantage.
	Energy Materials		
Sustainable Energy Science and Engineering	Sustainable Renewable Energy Engineering	Energy Engineering, Electrical Engineering, Mechanical Engineering, Chemical Engineering, Chemicals and Processing Engineering; Bachelor’s degrees in other Engineering disciplines or natural sciences (Physics and Chemistry) may also be sufficient provided that relevant coursework in Thermodynamics, Basic	Applicants MUST have at least “B” grades in Chemistry, Physics, Mathematics, Energy Sciences and/or Mechanical Engineering and related courses in their Bachelor’s degrees.
	Sustainable Nuclear Power Engineering		

	Sustainable Power Generation and Energy Utilization	Engineering, Statics and Dynamics Controls, Heat Transfer, Fluid Dynamics, Energy and Mass Transfer, Reactor Design, Electrochemistry, Semiconductors, Mathematics:- with a focus on Numerical Analysis, Vector Calculus, Differential Equations, Computer Programming knowledge or related fields	
--	---	--	--

4.0 FEE STRUCTURE

Visit NM-AIST website: www.nm-aist.ac.tz for details on fees structure. Note that it is mandatory to pay all direct University costs.

5.0 ADMISSION AND SPONSORSHIP

Applicants meeting the admission requirements will be offered provisional admission letters to enable them find sponsors for their studies. The Nelson Mandela African Institution of Science and Technology competitively offers scholarship to students when available.

6.0 APPLICATION INFORMATION AND INSTRUCTIONS

- 1) Applicants are required to read and understand all information before filling and submitting the online application forms.
- 2) No student will be allowed to change the programme specialty admitted to.
- 3) Selected applicants will be required to produce their original transcripts and certificates for authentication during registration.
- 4) Applicants are required to submit the following documents to support their applications:
 - a. Certified copies of degree transcripts and certificates.
 - b. Certified copies of Certificate of Secondary Education Examination (CSEE) and Advanced Certificate of Secondary Education Examination (ACSEE) and other relevant academic certificates.
 - c. If employed, a signed certification of employer regarding grant of study leave.
 - d. Evidence of English proficiency if the medium of communication in the preceding academic levels was not English.
 - e. Bank pay-in-slip as evidence of payment of application fees (non-refundable):
 - i. TShs 50,000/= (for Master's) or TShs 65,000/= (for PhD) for Tanzanians.
 - ii. USD 25 (for Master's) or USD 32 (for PhD) for international applicants.

7.0 PAYMENT OF APPLICATION FEES

Application Fees should be paid to the following accounts:

Tanzania Currency:

Bank name: CRDB – USA River
Account No: 0150047604202 for TShs
Account Name: Student Fees TShs

USD Currency:

Account Name	NM-AIST STUDENT FEES USD
Account Number	0250047604201
Bank Name	CRDB BANK
Bank Branch Address	USA BRANCH ARUSHA
SWIFT Code	CORUTZTZ
Branch Tel:	+255-272553741

8.0 SUBMISSION OF APPLICATIONS

All admission applications should be done online at <http://flexcms.nm-aist.ac.tz>

NOTE:

- (i) Applications may be submitted throughout the year. However, applications for admission into coursework and dissertation programmes should reach the institution **before 15th November 2017** for students intending to commence studies in the subsequent academic year.
- (ii) Candidates for Master's and PhD by research and thesis programmes will be admitted any time within the academic year upon confirmation of Scholarships.

Enquiries and clarifications should be sent through admission@nm-aist.ac.tz
